APPOINTING CHANNEL PARTNER IN YOUR LOCATION FOR SCHOOL ACTIVITY

Swaraj Education and Business Training Board (India) :

A Qualitative & Dedicated organization in IT education field in all over India established in NOV-2012 Board Reg. No : SRA /XXI/1860/614 .

Under SEBTB certification various projects were introduced in Eight different states including (*Maharashtra, Gujarat, Karnataka, Andhra Pradesh, Madhya Pradesh, Uttar Pradesh, West Bengal, Jammu Kashmir*) for improving IT education quality.

SEBTB introduced **Swarajya Future Smart Education (SFSE)** all Over India. Candidates can take this **SFSE Scheme** to move into the IT world with their non IT graduation such as B.A., B.COM, and B.Sc.

50000+
STUDENTS CERTIFIED

Along with this IT education ,SFSE were designed a new project in schools to bring out hidden talent.

Our team were executing Olympiad competitions from 2013.

The technological explosion in communication has pushed handwritten communication abilities to the back drop, but a student's capability is still judged by what he/she hand-writes on his/her 'exam' papers.

All good intentions & efforts of schools to tackle this menace have gone in vain. Hence, Handwriting Olympiad was introduced in 2013 as a platform where every participating student could get individualized corrective advice from Handwriting Experts and improve upon legibility.

We are conducting School Level Handwriting Championship Olympiad involving students from 1st Standard to 10th Standard, and is conducted within the premises of the participating School.

Under this project numerous students got Trophy, Shield, Momentum's and certificates of an Olympiad level competition. Surely those activities have excellent changes in students we experience good reviews from schools management and parents .

Handwriting Championship Olympiad

Writing is not just a physical activity done through fingers, but it involves the brain that thinks, converts the thoughts into words, gives a command to the hands for the motor action and the final output is a readable product on the paper.

Objective is to provide a strong policy framework with development and equal opportunities to students and schools in city & rural areas. Lets join for change...!

Thank You.
